

## SNOW REMOVAL INFORMATION

Medford Township strives to provide effective and efficient snow and ice removal to allow motorists to travel safely within the Township during winter weather events. Each event is unique, and the snow and ice control operation changes depending on several factors including but not limited to the amount, type and intensity of precipitation forecasted. Motorists should always use caution and drive appropriately for the road conditions.

In response to most winter weather events, the streets and roads may be pre-treated with brine and/or treated with salt. If conditions and accumulations warrant, the Township switches to plowing operations.

Placing snow on streets: Township Code 129-3 prohibits anyone from shoveling, blowing or plowing snow from private property onto sidewalks, streets and roadways, and fire hydrants of the Township.

Removing snow around fire hydrants greatly assists the Fire Department. Township Code 129-1 requires that property owners remove snow and/or ice from any hydrant located on their property within 24 hours of daylight after the storm ceases.

Parking-Off Street: If off-street parking is available to property owners, the Township asks that vehicles be parked in such locations. This will allow crews to move more efficiently and effectively to clear the streets and roads without concern for vehicles that may be in the rights of way and can be a significant hazard to drivers. This also prevents vehicles from being plowed in.

More information is available on our website at <http://www.medfordtownship.com/content/233/251/325.aspx>

## STREET SWEEPING

The Street Cleaning Program runs annually from April through October in order for Medford to be in compliance with NJ State Stormwater Management regulations. The Dept. strives to have residential streets in the Township swept two times per year, with commercial and downtown streets being swept more frequently.

## OTHER MISC. SERVICES

**Potholes, Drainage Issues, Downed Trees & Limbs in a public right-of-way, Dead Animal Carcasses, Missing and/or Damaged Street Name signs:** Please use our automated Citizen Service Request Program found on the homepage of our website to notify us of any of these or similar issues. The system will prompt you to those situations in which immediate notification in lieu of an e-mail is required.

**Street Light** outages should be reported directly to your local utility company. PSEG & AC Electric contact information can be found on your monthly bill or on the Neighborhood Services Department page on the website.

**Mosquito** concerns should be addressed to the Burlington County Mosquito Control Commission. You may also call them at (609) 265-5064 or email them at [mosquito@co.burlington.nj.us](mailto:mosquito@co.burlington.nj.us).

## RECYCLING

Cardboard, paper, plastic, aluminum & glass containers are considered recyclable. Curbside recycling is provided by Burlington County every other Tuesday, except for holidays. Recycling information including the collection schedule is available on the Recycling page of our website. The Township also provides a bulk-drop off for large amounts of recycling and other disposal items including televisions & computers at the Township Yard. If you need more info, the County Recycling Hotline at (609) 267-6889 or the Recycling Office at (609) 499-1001 weekdays between 9am-5pm.
