## MONTHLY RECYCLING TIP

Used syringes are a common contaminant at the Burlington County Recycling Center, and also a dangerous one that puts the safety of their workers at risk! Therefore, they do not belong in your recycling container.

**\*\*Never place them in your recycling\*\***

To safely dispose of used syringes, place the clipped needle and syringe in a sturdy plastic container such as a detergent bottle. Put a warning label stating "WARNING: USED SYRINGES" on the container. Seal the bottle and tightly recap it, as well as duct tape it to secure the lid.

To correctly and safely dispose of the container, please bring it to a participating hospital or place it in your regular trash. **DO NOT RECYCLE THIS CONTAINER.**
